

ITALIANS LAUNCH OFFENSIVE AGAINST AUSTRIA

HUNS START FLIGHT FROM BELGIAN SOIL

Transports, Homeward Bound, Seen by Airmen—German Line to Crumble.

MOVE BIG COAST GUNS

Foes Take Heavy Artillery From Belgian Coast—Vans Take Archives From Brussels to Germany—Belgian Civilians Joyous.

Paris, Oct. 3.—The Germans are moving their heavy artillery away from the Belgian coast, according to reports here.

Washington, Oct. 3.—Further evidence of German preparations for evacuating the Belgian sea coast reached the State department in dispatches saying hospitals, postoffices and the contents of storage houses of the German Fourth army district were being moved back and turned over to the military government in the interior.

German civilian authorities are being generally recalled and strict regulations affecting the maritime district are being enforced.

Move Toward Belgian Line.

Along the road running from the St. Quentin-Cambrai line in northern France, long trains of transports are moving back toward the Belgian frontier. Allied aviators have reported this first indication that the defeated enemy has begun to retreat before the thrusts of the British, French and Americans along this line.

While the battle still rages fiercely along the front, where for the last five days a titanic struggle has been going on, the enemy evidently realizes that the inroads made by the Allies on the Hindenburg line have shattered that famous position and made it untenable.

Retreat Actually in Progress.

Military observers expect, now that a retirement is actually in progress, that the whole German line will crumble as the Teutonic armies make their way back to their next defensive positions.

Remove Archives to Germany.

London, Oct. 3.—The Daily Express learns from its Amsterdam correspondent that Baron von Falkenhäusen already has ordered the removal of all archives from Brussels. A great array of documents is said to be ready to start on the homeward journey.

"We Won't Be Here Long." German soldiers in Belgium are quoted as openly saying, "We won't be here longer than six weeks."

The Belgian population is secretly joyous, but does its best to restrain all manifestations of jubilation lest the invaders order the usual punitive measures.

The correspondent adds that the pressure of majority socialists probably will force the inauguration of this week of a parliamentary government in Germany, with an accompanying peace offer on "moderate terms."

NOTED PRELATE IS BURIED

Thousands Attend Funeral of Archbishop Ireland.

St. Paul, Oct. 3.—While hundreds of residents of St. Paul halted their work and bowed their heads at the tolling of church bells the body of Archbishop John Ireland was carried from the Cathedral of Saints Peter and Paul for burial in Calvary cemetery.

Ten thousand persons thronged the cathedral, all eyes turned toward the catafalque where rested the body. Thousands more stood outside with bared heads, filling the streets for a block around.

Spirit of Victory Prevails.

Washington, Oct. 3.—Following the announcement that Iowa had subscribed its quota to the Fourth Liberty Loan, treasury officials issued the following statement: "A new spirit has permeated the nation; the people accept them as a part of the regular routine, which, combined with genuine American enthusiasm, makes for success." Optimism prevailed among officials. Some sections were lagging, but for a majority of the nation it can be said there is no shirking.

COUNT VON BERNSTORFF

May Become New German Imperial Chancellor.

Count von Bernstorff, former ambassador at Washington and now ambassador to Turkey, is prominently mentioned as a possible successor to Count von Hertling, the German imperial chancellor, who has resigned.

British Troops are Smashing Hun Lines

BY LOWELL MELLETT, (United Press Staff Correspondent.)

With British aid, Oct. 3.—British troops are smashing the German lines on an eleven mile front north of St. Quentin today. They have wrested the villages of Lecatelle, Govy, Ramcourt and St. Quehart back from the Germans. They took 2,000 additional prisoners.

Suffragists Thank President Wilson

(By United Press)

Washington, Oct. 3.—A committee of 75 suffragists called on President Wilson this afternoon thanking him for his effort for suffrage.

2 Killed, 20 Hurt by Passenger

Cleveland, O., Oct. 3.—Two workmen were killed instantly and twenty more were injured when a Pennsylvania passenger ploughed through them in thick fog this morning.

Australian Troops in Damascus Battle

(By United Press)

London, Oct. 3.—Australian troops yesterday in the vicinity of Kubbetiasafir, 17 miles northeast of Damascus captured an enemy column, taking 1500 prisoners, two guns and forty machine guns, says a Palestine communique.

German U. Boat is Reported Operating

(By United Press)

An Atlantic Post, Oct. 3.—Reports of a German U-boat operating 200 miles off the Atlantic coast was brought here today by two merchant vessels. Both reported receiving S. O. S. calls.

Falling Behind on Liberty Loan Call

(By United Press)

Washington, Oct. 3.—There has been a falling behind in response to the Liberty Loan. The nation today had only passed the half billion dollar mark in four days. To subscribe the minimum of six billion in the allotted time, daily sales must hereafter exceed three hundred million.

DRIVE HAS STARTED IN ALBANIA, YANKS RAID ENEMY NEAR VERDUN

Turkey Intends to Propose Peace

(By United Press)

London, Oct. 3.—Turkey has notified Germany that she intends to propose peace to the allies, a Zurich dispatch to the Daily News declares. Germany is said to have replied at some length, partly menacing and partly in a pleading tone. Turkey's decision is believed to be imminent.

The dispatches further say that Germany has declared her intention of occupying Bulgaria militarily. The Central News dispatch from Paris states to the contrary, that the Turkish military council has decided to maintain an alliance with Germany and Austria.

French are Attacking on Fifteen Mile Front

BY JOHN DeGRANDT, (United Press Staff Correspondent.)

Paris, Oct. 3.—General Debeny attacking on a fifteen mile front between St. Quentin and LaFere are nearing Berthenicourt and are rapidly outflanking LaFere. Between the Vesle and the Aisne and the Aisne Marne canal General Berthelot has cleaned out all Germans except in a small area south of Berry Aue-Bac, where the French advanced elements are progressing.

Italian Army Has Launched Offensive

(By United Press)

Washington, Oct. 3.—The Italian army has launched an offensive against the Austrians in Albania, embassy cables have declared.

Americans Raid Captures Austrians

BY FRED S. FERGUSON, (United Press Staff Correspondent.)

With the Americans west of Verdun, Oct. 3.—In the region of Fresnes, east of Verdun, where the American raid resulted in taking about fifty Austrian prisoners, the Americans have advanced more than four miles in the Argonne forest since starting the offensive. American aviators are continuing their remarkable work in regulating artillery fire, strafing infantry and transports, and fighting off boche planes. Lieutenant Ward of California, and Lieut. Elsa, of New Jersey, had a thrilling experience. Their motor died just as they dropped a load of bombs on Grandpre. A boche plane then attacked them. They volplaned to the ground thinking sure they were on German soil. The sight of a doughboy reassured them. The United Press car picked them up and returned them to their field.

Germans Retreating on Twenty Mile Front

(By United Press)

London, Oct. 3.—The Germans are retreating on a twenty mile front between Armentieres and Lens General Haig says in an official report. They are evacuating highly organized positions which they have held since the beginning of trench warfare. The British attack north of St. Quentin was renewed this morning. The retirement reached a depth of two and a half miles the British advance continuing.

Germans Set Fire to City of Roulers

(By United Press)

Paris, Oct. 3.—The Germans have set fire to the Belgian city of Roulers which the allies have surrounded.

Allies Take 123,036 Prisoners in Sept.

(By United Press)

Paris, Oct. 3.—The allies took 123,036 German prisoners in France and Belgium during September. It is officially announced. Also 1600 cannon and more than ten thousand machine guns were taken in the same period.

"Kamerad" Cries Bulgaria, Hoisting the White Flag

Bulgaria, despite the alleged friendliness of King Ferdinand for the German emperor and the Germans, has cried "Kamerad!" and hoisted the white flag, the first to be hoisted by any of the combination of central powers since the war began. The issue is of intense importance to the German dream of conquest. Bulgaria's surrender would cut off the connection with Turkey. The German dream had been a Mitteleuropa, extending from Antwerp to the Persian gulf, taking in Bulgaria and other Balkan countries and Turkey. This map shows the railroad running through Budapest, Belgrade, Sofia, and Constantinople to be cut in two, so there can no longer be communication with Turkey if Bulgaria quits fighting. General d'Espercy is the allied commander to whom the peace offer was made, and he is now believed to be negotiating with representatives of the Bulgarian government.

and Constantinople to be cut in two, so there can no longer be communication with Turkey if Bulgaria quits fighting. General d'Espercy is the allied commander to whom the peace offer was made, and he is now believed to be negotiating with representatives of the Bulgarian government.

ELIHU ROOT

Sees Long and Terrible Struggle Ahead of Us.

A warning against "supposing that the war is over now because of the blessed and cheering news that comes across the water," was sounded by Elihu Root in an address before the student army training corps at Columbia university. "A long and terrible struggle is still before us."

GERMAN HOLD BROKEN

Enemy Grip on France and Belgium Is Slipping.

Washington Military Critics Believe German Armies Are Nearing Disaster.

Washington, Oct. 3.—That the German grip on France and Belgium has been definitely broken and that the far-famed Hindenburg line is disintegrating, even the most conservative of military observers here are convinced.

Outflanked in Belgium and in the Champagne, the great Hindenburg line already becoming untenable when the forces of Field Marshal Haig crashed through it, just north of St. Quentin.

Military authorities here were inclined to speculate more on the efforts of the German high command to extricate its armies from the Allied pincers than upon the possible offensive thrusts. It was believed that the penetration of the Hindenburg line might furnish Foch with a means with which to embarrass the German retreat, always with the possibility of precipitating a rout.

U. S. Steamship Tampa is Sunk

(By United Press)

Washington, Oct. 3.—The U. S. S. Tampa, formerly a coast guard cutter, was sunk in foreign waters and all on board lost, says a navy announcement. Eleven officers and one hundred and two of the crew and five of the civilians are missing.

Prince Max of Baden Appointed Chancellor

(By United Press)

London, Oct. 3.—Prince Max, of Baden, has been appointed German Chancellor, succeeding Count Von Hertling, according to Copenhagen and Amsterdam word.

French Continue to Advance in Champagne

(By United Press)

Paris, Oct. 3.—French forces continue to advance in Champagne and the Vesle region says a French official statement. Callera was captured last night, and north of Rheims the French Loire. The French attack was resumed at daybreak.

TEUTON ARMIES LEAVING LILLE

German Commander Seizes Any and All Kinds of Transportation.

FOE BADLY BATTERED

On Wide Front North and South of La Basse Canal Enemy Troops Are Retreating Before Allies.

Paris, Oct. 3.—The Matin announces that the Germans are evacuating Lille and that the commander there has requisitioned all means of transportation, even wheelbarrows and baskets, to take away the booty. The newspaper adds that the evacuation of the townspeople to Belgian towns near the German border is being prosecuted hastily.

Paris, Oct. 3.—General Berthelot's army reached the Aisne canal at several points. The Germans are retreating all along this front. The progress of Allied armies in Flanders continues unchanged, notwithstanding the stiffening resistance of the Germans.

London, Oct. 3.—On an important sector of the battle front in France the Germans again are in retreat. The scene of the new retrograde movement is a wide front north and south of La Basse canal.

The continuation by the Allied forces of their brilliant achievements in restoring Belgium Flanders and the expulsion of the enemy from further territory in France from the region of Cambrai to Verdun evidently has brought the Germans to the realization that the great bend in the line from Menin to east of Arras is likely to prove another such trap as was the St. Mihiel salient unless they are fast enough of foot to move eastward, giving up Lille, Lens and Douai and straighten their line from the vicinity of Cambrai to Belgium.

Advance on Other Six Fronts.

On all the other six battle fronts from Belgium to Verdun the Allied forces are keeping up their successful advances, although the Germans everywhere, except northwest of Rheims, have materially stiffened their front and are offering strong resistance to further inroads into the territory.

In Belgian Flanders the wedge of the Belgian, British and French troops has penetrated still farther eastward and southeastward from Dixmude and only a few miles more will be required by the Allied troops to give them positions by which Ostend, one of Germany's sea bases, will be made untenable, and indeed, the entire North sea coast now in German hands put in jeopardy. British warships are now violently bombarding the coast and the Germans are reported to be moving their heavy guns eastward, fearful of their capture.

Allies Investing Menin.

Many additional towns have been captured by the Allies in this region and numerous prisoners have been taken. The important railroad junction point of Roulers is all but in the hands of the Allies, while southward from Roulers the British have cut the Roulers-Menin railway at two places and are in the process of investing Menin.

The French are now in full possession of St. Quentin and have passed on eastward. The entire Hindenburg system between St. Quentin and Le Cateau has been smashed by Field Marshal Haig's forces, with whom the Americans are brigaded, and further ground has been won in the outskirts of Cambrai and north of that city. At one point north of St. Quentin the British were forced to give up a village under heavy counter attacks by fresh German troops.

Northwest of Rheims the St. Thierry massif has been captured, and north of the Cathedral city the environs of Betheny have been reached by the French. The Germans along the front are in retreat to their old 1917 line and the French have reached the Aisne canal at several points.

CREATES GRAVE SITUATION

Austrian Premier Comments on Surrender of Bulgaria.

Basel, Switzerland, Oct. 3.—The Bulgarian armistice undoubtedly has created a grave situation for Austria-Hungary, the Austrian premier told the lower house, but suitable military measures will be taken immediately in accord with Germany.

DEERWOOD DISTRICT ATTAINS ITS QUOTA

Makes Good Showing in the Fourth
Liberty Loan Canvass in Crow
Wing County

MORE BOOKS FOR SOLDIERS

The "Fairy Play" Given at Oberg's
Point Netted \$8.35 for the Red
Cross Association

Deerwood, Minn., Oct. 3—George
Merriot, a former Deerwood resident,
was accidentally killed in a shipyard
on the Pacific coast.

The Deerwood district attained its
quota in the Fourth Liberty Loan.
The allotment was \$25,000, the vil-
lage quota being \$14,000, Deerwood
township \$4,500 and Bay Lake \$6,500.

The "Fairy Play" given at Oberg's
Point in September netted \$8.35 for
the Red Cross. The play was writ-
ten by Miss Ruth Hoglund.

The Deerwood public library has
received a request from the Ameri-
can Library association for more
books from this section for the men
over seas.

Miss Boyle, a Deerwood teacher, is
ill at her home in Duluth.

Mrs. John Lindholm entertained the
Swedish Ladies' Aid society.

There is more Catarrh in this sec-
tion of the country than all other dis-
eases put together, and for years it
was supposed to be incurable. Doc-
tors prescribed local remedies, and
by constantly failing to cure with lo-
cal treatment, pronounced it incur-
able. Catarrh is a local disease,
greatly influenced by constitutional
conditions and therefore requires
constitutional treatment. Hall's Cat-
arrh Medicine, manufactured by P.
J. Cheney & Co., Toledo, Ohio, is a
constitutional remedy, is taken in-
ternally and acts thru the Blood on
the Mucous Surfaces of the System.
One Hundred Dollars reward is offered

Medicine fails to cure. Send for cir-
culars and testimonials. P. J. Cheney
& Co., Toledo, Ohio. Sold by
Druggists. 75c. Hall's Family Pills
for constipation. 11

DISPATCH ADS BRING RESULTS

HOME TOWN HELPS

COMMUNITY LIFE IS BEST

Under That System Every Citizen Has
an Equal Interest in His
Own Home Town.

Community life is the ideal life.
People have more time to spend in
and about their homes and as a re-
sult take greater interest in the de-
velopment of their immediate neigh-
borhood. They are more congenial and
neighborly; they take greater pride
in keeping their homes and yards in
good condition; they are contented,
more progressive and incidentally
more prosperous; their children are
raised and educated in the proper
moral environment; they associate
with good companions and grow up to
be sound, healthy, clear-thinking men
and women of the type that make the
best citizens.

Much more could be said of the
community proposition, but I believe
I have said sufficient to prove beyond
a doubt that the development of com-
munities on a broad, systematic basis
will have a tendency to increase the
number of home lovers and home
owners.

Real estate companies should avoid
as much as possible the placing of a
mere allotment on the market. It
takes considerable time, trouble and
money to work on the community plan,
but the results achieved make the ex-
tra effort and expense well worth
while.—Exchange.

PRETTY ORNAMENT ON PORCH

It is Just Things Like This Floral
Urn That Add Attractiveness
to a Town.

A large granite boulder hollowed out
as a receptacle for a potted plant is
the ornament which adorns the porch

The Ground Pine Seems to Grow
Naturally Right Out of the Boulder
and the Effect is Very Attractive.

at the home of Paul Brochier, on West
Adams street, Los Angeles.

The rock is practically round, except
that it is slightly flattened on the base
to give it a firm setting. With an or-
dinary rock drill the inside of the stone
was hollowed out so that a large flow-
er pot would fit in exactly. A small
drainage hole was drilled through to
the bottom and a ground pine was
planted in the flower pot.—Popular
Science Monthly.

Don't Let Weeds Get Started.

If the garden is not neglected too
long it can be rehabilitated again to
some extent, but this means a long,
hard job, which is not a pleasant thing
in hot weather. On the other hand, if
a little judicious work is done at fre-
quent intervals the weeds and pests
can be kept down—and so the garden
kept up—without burdensome effort.
Never let the weeds grow tall. Kill
them with some kind of cultivating
tool when they are little, or, still bet-
ter, by stirring the ground from time
to time before they appear at all; for
you may be sure that if the ground is
not stirred frequently they will appear.
Do not let the pests get a start. It is
safe to use the arsenical sprays on late
cabbages, cauliflowers and tomatoes.
No part of the late cabbages thus far
grown will be eaten, and furthermore,
they develop from the inside so
that even if arsenic is used on them
late, the edible portion is protected by
the coarse outer leaves. Cauliflower
may be so sprayed until the curd be-
gins to form. Anything that is peeled
may be sprayed. Tomatoes may either
be peeled or washed and thus freed
from any dangerous effects.

Fatal to Neglect Garden.

Neglect of the garden during the hot
weather is fatal to a good crop, says
W. E. Lommel of Purdue university,
assistant county agent leader, in
charge of garden work. More work in
the garden is necessary now than at
any other time of the year, if full
value from earlier efforts is expected.
Enthusiasm of the war gardeners must
continue till frost.

"Vegetables require moisture and
food for their proper development, and
the food is not available for plant use
if water is not present in the soil," said
Mr. Lommel. "A good supply of soil
moisture in the garden, therefore, is
of vital importance. In watering, soak
the soil thoroughly, as frequent light
sprinklings do more harm than good.
Seeds which are planted during hot
dry weather especially need artificial
watering, as do the young plants."

Every Day Investing

THE thing that
becomes a daily
habit is the thing
that dominates our
lives, for good or ill.

"Shall I spend this small sum, or shall I invest
it?" becomes a daily question with an owner of a
Savings Account at this bank.

And every decision in favor of "investing" adds
a coin to capital, and confirms him one degree more
in the habit of every day investing.

More than that: It adds precision to his plan
and decision to his effort successward.

For the "savings bank way," thought by some
to be a slow way, is the one which has led to many
fortunes.

Bring this question home to yourself:
"It is my privilege to become an every
day investor; why not accept it?"

(Communicated)

Mothers of Brainerd and vicinity, attention! Here is an opportunity to get something for nothing. No, not something for nothing, either. It is really an opportunity to let the state pay a tardy debt to you. You have always furnished defenders of the state, and at last the state is acknowledging and attempting to discharge its debt to you by taking care of your babies. If it must take your boys, it will try to save your babies.

Some time next week there will be a baby clinic held in Brainerd, and the services of a noted baby specialist will be given free to every mother who will bring in her children who are under five years of age. This specialist is the medical director of the Child Welfare division of the State Board of Health. It is really a wonderful opportunity to have your children examined, if they are suffering from known or unknown diseases, and let the state pay the bills.

Dr. Huenekins, who will conduct this clinic, has received very large fees from the wealthy patients for examining their babies. He stands very high in his profession, and has great enthusiasm for his work. Any mother who reads this notice and can bring her child into Brainerd, should communicate with Mrs. Carl Bentley, either by phone or letter, who will give her the exact date of the clinic, and any further details she may require.

Midweek Service

The midweek service of the Presbyterian church will be held this evening at the church at 8 o'clock. The subject for study will be the first part of the twenty-fifth chapter of Matthew. At the conclusion of the study and prayer period the matter of a teachers' training class will be taken up. The book considered for study will be "Thoroughly Furnished." This is a three year course and involves both biblical and pedagogic study. Teachers and high school scholars are especially invited to take up this course. Rev. W. J. Lowrie will be the teacher.

Bible Study

The Bible study and prayer service of the Peoples Congregational church will be held on Thursday night. These meetings are growing in interest and numbers each week. Lesson this week, "Abram Leaving Home," Genesis 12:1-9. Choir rehearsal following Bible study.

Confirmation Class

The confirmation class of the Swedish Lutheran church will meet Saturday at 10 A. M. at the church.

PRESBYTERIAN SOCIAL CLUB

To Give Program at Home of Mr. and Mrs. Geo. Hess in West Brainerd

The Presbyterian Social club will give the following program at the home of Mr. and Mrs. George Hess, West Brainerd, tomorrow night. Changes may be made but it is expected to render the program substantially as it appears.

Plano solo, Miss Alice Johnson; instrumental trio, Misses Cecil and Lorraine and Beatrice Morrison; violin and piano duet, Misses Alice Johnson and Cecil Morrison; vocal solo, Mrs. Nels Johnson; vocal solo, Dr. A. K. Cohen; vocal duet, Mrs. Gracia Fite and Miss Anna Temple; violin solo, Harold Opsahl.

The program will begin at 8:15. A charge of ten and fifteen cents will be made for the lunch. An invitation is extended to member and friends.

Vaale Church

A luncheon will be served by the Ladies' Aid of the Long Lake Vaale church next Wednesday evening, Oct. 9, from 8 o'clock and on, the proceeds of which will be given to the Red Cross. When out on your joy ride stop at the church for a lunch, take Oak street road to Swelland corner and 1 1/2 miles south. Everybody welcome.

Ready Workers Class

The Ready Workers class of the Peoples Congregational church will be entertained on Friday night at the home of Miss Myrtle Olson, Elm Avenue. All members are requested to be present and visitors are welcome.

Sale and Supper

The annual sale and supper of the Norwegian-Danish Lutheran church will be given on Friday evening, October 4, at the church basement. Supper will be served from 5 to 9 P. M.

Busy Bee Society

The Busy Bee society of the Swedish Lutheran church will meet at the church on Saturday afternoon at 2 o'clock. They will hold their annual supper October 15 at the church.

Young Peoples Society

The Young Peoples society of the Swedish Lutheran church will meet at the church at 8 P. M. Friday and be entertained by the Misses Selma and Anna Peterson and Etta Johnson.

TRAINLOADS OF AIRPLANES

United States Shipping Many Machines to France.

Washington, Oct. 3.—Liberty motors now have reached quantity production and American-built airplanes are being shipped in trainload lots daily from the factories for service overseas. W. C. Potter, acting director of the bureau of aircraft production, made this announcement upon his return to Washington from inspection of factories building planes and motors.

Operators Will Get Raise.

Washington, Oct. 3.—Railroad telegraphers probably will receive soon a wage increase of between \$20 and \$25 a month, it was said by Railroad administration officials. The application of the Order of Railway Telegraphers for more than twice this amount of increase is still pending before the board of railway wages which is expected to report soon to Director General McAdoo. The increase to be suggested will be about equivalent, it is said, to that recently granted clerks.

TAKE OVER GERMAN PLANTS

British Expedition Seizes Valuable Property in Arctic.

London, Oct. 3.—Seizure by a British expedition of German mining property and other development plants in Spitzbergen, including a big wireless installation, is reported by the Express with the intimation that the work of developing immensely rich iron and coal deposits is proceeding. It is said they will be of the greatest importance to Great Britain and the Allies.

Royal Estate Opened to Public.

Part of the estate of the late former Queen Liliuokalani recently was opened to the public of Honolulu for the first time. This makes one of the finest stretches of bathing beach at Waikiki now available to the people. Prince J. Kuhio Kalaniana'ole, owner of the property, has torn down a fence which for years made the beach private. Prince Kuhio, once widely known as Prince Cupid, inherited much of the property of the late queen. He is now serving his eighth term as delegate from the territory of Hawaii to congress and is a candidate for the Republican nomination.

FOLEY KIDNEY PILLS
FOR BACKACHE, KIDNEYS AND BLADDER

AMUSEMENTS

At the Best Tonight

Among the motion picture stars of the present day, Pauline Frederick is famed for her beauty and talent, and she has probably one of the largest motion picture followings in the country. She is a dramatic actress with accomplishments of the highest order, which she amply demonstrated in her recent Paramount pictures, notably "La Tosca," in which she exhibited artistic qualities of supreme merit.

Miss Frederick will be seen here in her new photoplay, "Resurrection," a picture of Count Leo Tolstoy's famous novel. In this picture Miss Frederick is seen as a half Gypsy Russian girl, who, after her betrayal by a disolute Prince and favorite of the Czar, becomes a social outcast and lives the degraded life of a Magdalen. She is convicted of a crime of which she is innocent, and banished to Siberia. The man who is responsible for the wreck of her life is seized with remorse and offers to marry her, but recognizing the inequality of their social positions, she refuses this offer, because of her love for a simple peasant whose friendliness and protection on their dreadful march across the Siberian wastes had won her love.

Miss Frederick is capably supported in this unusual photoplay by such sterling screen players as Robert Elliott, John Sainpolis and Jere Austin. As Prince Nekudov, a disolute Russian Prince who later finds his soul, Mr. Elliott is to great advantage, while the portrayal of the role of Simonson, a peasant, by Mr. Sainpolis, is highly artistic. Mr. Austin is well cast and the support generally is of a character which adds much to the attractiveness of this great photoplay.

The scenes are thrilling, the action dramatic and rapid, and in all other respects, "Resurrection," which will be shown at the Best theatre tonight, is a photoplay which, once seen, may be viewed again and again with profit.

At the Best Monday

"Prunella," which was in its time one of the most popular of stage productions, and in which dainty Marguerite Clark was starred, has been revived by the Paramount Pictures Corporation, and will be the attraction at the Best theatre on Monday, starring Miss Clark.

The screen version has been taken bodily from the play and many fea-

tures that were impossible of reproduction on the stage, such as the details of the glorious old garden where dwelt Prunella and her three aunts, have been incorporated in the screen version. The old sun dial and statue of Love erected by Prunella's run-away father, are all beautifully shown.

Maurice Tourneur, the director, admitted that "Prunella" was his favorite play, and to it he has devoted all of the artistry and talent which have made him famous in such productions as "Barbary Sheep," "The Blue Bird," and "Rose of the World."

The KITCHEN
CABINET

A sweet temper is to the household what sunshine is to trees and flowers. A little bit of patience often makes the sunshine come. And a little bit of love makes a happy home.

WAYS WITH LEFTOVER FISH.

HERE are so many dainty dishes using leftover fish which are both palatable and wholesome. Fish a la Creme.—Put two table-spoonfuls of butter in a saucepan; when melted add a table-spoonful of flour; when well cooked add two egg yolks and a cupful of milk which have been beaten together. Add slowly and stir constantly; when thick and smooth, add a teaspoonful of salt, a few drops of onion juice, a few dashes of paprika and the fish. Fill the ramekins and cover with buttered crumbs. Place in a hot oven for a few minutes, or until the crumbs are a light brown. Garnish with parsley.

Escalloped Fish.—Take three cupfuls of any cooked fish; flake it. Butter a baking dish, sprinkle with bread crumbs, then cover with flaked fish, from which all skin and bones have been removed, then add more crumbs. Cover with a cream sauce to which has been added a table-spoonful of chopped onion, a table-spoonful of Worcester-shire sauce, two table-spoonfuls of chopped parsley, two table-spoonfuls of sauce and pepper to taste. Use two cupfuls of white sauce. Bake uncovered for half an hour.

Fish Souffle.—To one cupful of flaked fish add a cupful of cream sauce, three egg yolks beaten-light and two cupfuls of rice potatoes. Fold in the beaten egg whites. Brush a baking pan with sweet fat, put in the mixture, rough it on top and bake until a light brown. Serve at once.

Fish Salad.—Mix a cupful each of rice, celery and one-half cupful of mayonnaise and a table-spoonful of chopped onion. Place any leftover cooked fish, like halibut or haddock, in the center, mixed with a half cupful of the mayonnaise and the rice and celery around it. Garnish with tomato jelly cubes or with parsley.

A cupful of flaked cooked fish of any kind added to a cupful of good white sauce, served poured over buttered toast, makes a most nourishing lunch-eon dish.

Nellie Maxwell

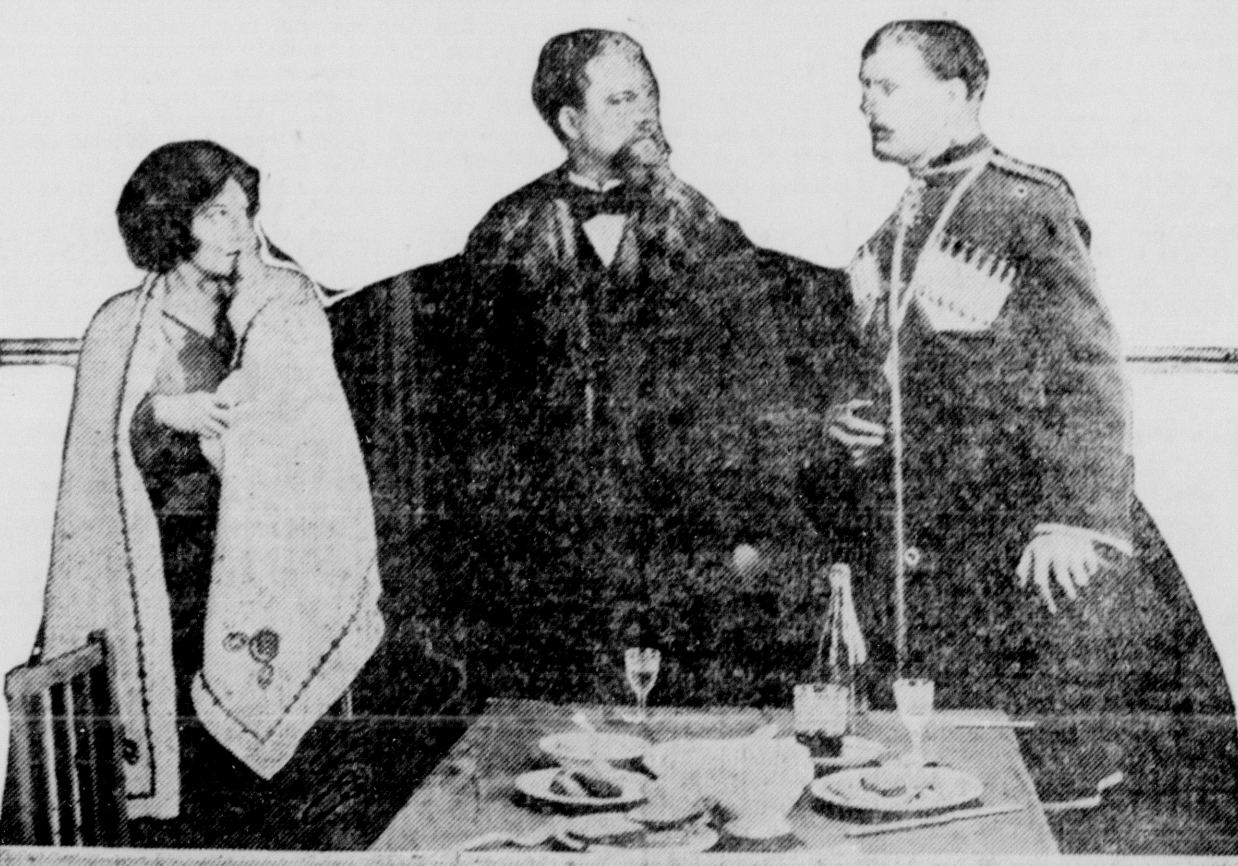

FOR LATE SUMMER MILLINERY

Feathers are a popular feature of late summer millinery. Above is shown a Russek hat that has been artistically adorned with two plumes which are especially graceful on this pale blue georgette creation.

MIGHT HAVE BEEN STARTLING

Just a Possibility That There Was Method in Passenger's Remarkable Exhibition of Drowsiness.

One afternoon, in a train running over an Illinois line, an amusing conversation took place between the conductor and a passenger who appeared to be under the influence of liquor.

The passenger was loping against the window sill and acting sleepy.

"Wake up and gimme your ticket!" growled the conductor.

No move.

Once more the pasteboard collector admonished his snooty (or boozy) passenger to awaken and dig up some sort of transportation.

Still no move.

The conductor went through the train and punched the local tickets. Then he returned. By that time the train had gone past two stations.

"Say, now, come out of the dumps and give me your ticket or off you go!" snorted the conductor as he grabbed the fellow rudely by the arm. The passenger revived slightly, but quickly sank back against the window sill again.

"Where is your ticket?" demanded the trainman gruffly. "You certainly have one somewhere about your person!"

The fellow offered no answer. At that the conductor grabbed him by the collar and yanked him to his feet, but he sank back limply into the seat.

Seizing the man by the collar again the conductor shook him roughly and yelled with mouth close to ear: "Confound your pesky skin; I've searched all of your pockets and you haven't a ticket anywhere on you!"

The passenger, slightly awakened from his stupor, blandly replied:

"Well, then, never mind. Let 'er go. I ain't goin' a great way anyhow!" And he wasn't. He stepped off at the next station.

Adler-i-ka
Again

"Adler-i-ka is the only medicine for gas on the stomach. I never had so much relief with any medicine. I would not take \$25.00 for the relief one bottle of Adler-i-ka gave me. I cannot get done recommending it." (Signed) H. L. Hicks, Ashley, Ill.

Adler-i-ka expels ALL gas and sourness, stopping stomach distress INSTANTLY. Empties BOTH upper and lower bowel, flushing ENTIRE alimentary canal. Removes ALL foul matter which poisons system. Often CURES constipation. Prevents appendicitis. We have sold Adler-i-ka many years. It is a mixture of buckthorn, cascara, glycerine and nine other simple drugs. Johnson's Pharmacy.

Do Something
Better Than the
Other Fellow---

and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

NOTICE TO SUBSCRIBERS

Notices and statements are being sent to all our subscribers who are not paid in advance.

It is not a movement of the publishers that all subscribers must pay in advance.

It is an order of the U. S. government! We must obey. We would be very glad to continue the old system, but the government decrees differently. We trust that all our subscribers will remit before October 20th, on which date all papers not paid in advance must be stopped!

We hope all our patrons will stay with us.

THE BRAINERD DISPATCH

EXCEPTION TO THIS

"The Church Friend," published in Swedish by the Swedish Baptist church of Brainerd, contains this item among its "Gleanings."

"It is not good temperance sense to give cigarettes to our soldier boys. Better kill the cigarette than have the cigarette kill the soldier."

Soldiers who have seen service over there will take exception to such a statement. The casualty list has never contained a single death by cigarettes.

Smoking in the army is a matter of individual preference. The Brainerd Dispatch Tobacco Fund amounted to over \$400 and did a world of good as may be vouched for by the hundreds of testimonials from the soldiers, and not one cigarette killed a soldier.

The whole output of the American Tobacco Co. which furnished the smoking tobacco for the Brainerd Dispatch Tobacco Fund kits, now goes to the soldiers. You can tell an American by the Bull Durham he smokes.

WIN THE WAR

"Win the war" is the central idea today.

Back up the boys at the front. There is no patriotism without sacrifice.

Buy Liberty Bonds until it hurts. Your money never entered a nobler cause than backing up our boys at the front.

Remember, if we lost, your money would be of little use to you. You would have to use currency commemorating the sinking of the Lusitania and bearing a picture of the Beast of Berlin on it.

The Boche have our noses to the ground and we'd never walk straight after that.

Bulgaria, a partner of the Boche in many of his crimes, has severed partnership with the Central Powers and threw down arms rather than have anything more to do with the Master Criminal of the Age.

Don't.

Never tell a city girl that she has a complexion like strawberries (advises Motherfamiliar). She knows that strawberries come in a box, too.

MAKES INDIRECT MOVE FOR PEACE

Turkey Said to Have Made Certain Overtures to Great Britain.

OFFER GIVEN HEARING

London War Cabinet Has Ottoman Proposal Under Consideration—Bulgaria's Action Creates Sensation in Vienna.

London, Oct. 3.—The Standard says it learns on good authority that Turkey has made further indirect overtures to the Allies through financial channels which are being considered by the British war cabinet. Important developments, the paper adds, are expected.

Czechs Spurn Cabinet Offer.

Amsterdam, Oct. 3.—Czech-Slovak leaders have sharply rejected an offer made to them to enter an Austrian coalition cabinet, according to a Vienna dispatch printed in the Frankfort Gazette.

Vienna newspapers which have reached here, describe the tremendous sensation caused in the Austrian capital by the Bulgarian collapse. Rumors spread with lightning-like rapidity that Turkey had followed suit, that King Ferdinand had abdicated, that his palace had been blown up and that a revolution had broken out in Bulgaria.

Desertion Tale Is Launched.

A Sofia dispatch, received through Vienna, says:

"The deserters who are advancing on Sofia have been driven back to Vladaja and Vitoz defile by government troops. There is no danger for the capital."

Charles Summons Pacifists.

Washington, Oct. 3.—An official dispatch from France says the Austrian newspapers announce the arrival at Vienna of Counts Tisza, Apponyi and Andrássy, leading Hungarian peace advocates, who have come there in response to telegrams from Emperor Charles.

Bulgar Socialists Urge Peace.

Paris, Oct. 3.—The United Socialist deputies of the Bulgarian parliament have issued a declaration supporting energetically the proposition for an armistice and peace, says a Sofia dispatch. They insist upon a reasonable ending of the war by Bulgaria and condemn anarchy of any description.

The deputies recommend that the army remain united, and they invite the nation to support the work of peace and defend the constitutional guarantees of the country.

Anti-German and pacifist riots are in progress throughout Bulgaria, according to a Zurich dispatch to the Journal. It is added that rumors are current of the formation of a national cabinet in Bulgaria under the leadership of Premier Malinoff and Dr. Ghenadiev, released from prison a few days ago under a pardon by King Ferdinand.

ONE MINISTER IS KILLED

Serious Trouble Breaks Out in New Siberian Cabinet.

Vladivostok, Oct. 3.—Serious trouble has occurred at Omsk between the cabinet recently organized there and other leaders. An attempt was made under the leadership of Minister of War Michaelov to force a resignation of the cabinet. The duma was then declared dismissed by the administrative council which had been organized by Michaelov to succeed the cabinet.

The members of the duma refused to dissolve that body and declared the administrative council abolished. They released the ministers who had been arrested and imprisoned Minister Michaelov.

During the trouble Minister Novikov refused to resign and was shot to death.

BANK ROBBER IS CAPTURED

Secures \$2,500 After Threatening to Blow Up Institution.

Chicago, Oct. 3.—A man in a gray business suit walked into the Park Ridge bank and handed the paying teller a note which said that he would blow up the bank unless given \$20,000. The teller handed him a bundle of bills totalling \$2,500 and the robber, who had not spoken a word, covering his retreat with a pistol.

Shortly afterward, the automobile in which he was speeding away with a companion was overtaken and he was made prisoner and was identified at the bank.

Civilians Leave City of Lille.

Paris, Oct. 3.—The city of Lille is being evacuated by its civilian population.

Turkish Surrender Believed Near.

Paris, Oct. 3.—The opinion is growing here that the surrender of Turkey cannot now be long delayed. The Temps remarks that "Ferdinand, in being the first to capitulate, strikes a blow at Turkey, and may perhaps have done a service to Austria, for Turkey is now isolated, and Austria now has the excuse which up to now she has lacked."

It is reported that the Turkish government is very uneasy at the persistence of the Germans in insisting on appropriating the Russian Black sea fleet.

LITTLE INTEREST IN THE ELECTION

PEOPLE OF THE COUNTRY HAVE NO SPECIAL CONCERN IN POLITICS THIS FALL.

DIFFERENT IN THE CAPITAL

Control of House and Senate the Prize—Congressman Decker's Patriotic Outburst Silences the Partisan Speakers in the House.

By ARTHUR W. DUNN.

Washington.—It is quite likely that politics which refuses to be adjourned in Washington will interest people in other parts of the country before the campaign closes, but up to the present time the people seem to take little interest in the coming elections. This is shown generally in the primaries, where such a small proportion of the people go to the polls when the selection of party candidates is made. A trip in any direction shows the apathy of the people as to politics. They discuss the war, the loans, the revenue bills, and other vital matters of pressing interest, but scarcely a man ever discusses the political situation or seems to care which party will control the next house of representatives.

Here in Washington the political situation is of real interest. Nearly every man in the house is a candidate for re-election. More than one-third of the senators are personally interested in the election of themselves. Then there is the question of the political control of the two branches of congress. Naturally the Democrats want to remain in control. They like the power and patronage and prestige which go with the majority. The Republicans are seeking just as earnestly to secure these advantages. Then there is the feeling that the mid-term congressional election is a sure indication of the pulse of the people and indicates the election of a president. For 30 years the success of a party at the mid-term congressional election has been followed by the election of that party's presidential candidate two years later. With so much of a political nature at stake, it is not surprising that men so vitally interested refuse to adjourn politics at this time.

There is yet a chance for that element in America that has opposed the war aims to get on the band-wagon. The time is getting shorter, it is true, and the probabilities are that loyal Americans will not look with favor upon those pro-Germans, pacifists and anti-war propagandists after the victorious American troops are on German soil and on their way to Berlin. Here and there we run across people who do not experience a thrill over the wonderful achievements of the American soldiers. While all Europe is praising their prowess there are still persons of American birth who do not feel like applauding. The time is fast coming when there will be no place in America for anyone with a tinge of Germanism in his composition.

When the eagle has to soar, then is young Congressman Decker of Missouri on the job. There had been a whirl of political speeches, Democrats and Republicans had said things about each other. The greater issue of winning the war seemed to have been forgotten. Leader Kitchin looked about him and his face brightened. "I yield ten minutes to the gentleman from Missouri, Mr. Decker," he said. And then Decker gave those fellows "what for." He told them in a few well-chosen words to stop their political bickering, and then he opened the floodgates and oratory was on tap. There were references to "Way Down South in Dixie," "Yankee Doodle," "My Country, 'Tis of Thee," Stonewall Jackson and Robert E. Lee, "Pap" Thomas and Ulysses S. Grant, Chickamauga, Spottsylvania and Cold Harbor; and then something about the North and the South, the East and the West, and the grandsons of those who wore the blue and the gray now in khaki on their way to Berlin. After that those political orators felt rather ashamed of themselves.

Congressman Hamilton of Michigan made a speech in the house which might be termed a "History of the Hun in Paragraphs," but which he calls "The House of Hohenzollern." Hamilton always publishes his speeches in paragraphs, two, three, or not more than a half-dozen lines each, making them very attractive and very readable. But this speech is particularly attractive and interesting because it gives the history of the Hun leader succinctly and with an accuracy which shows that Hamilton gave the matter careful study and research. It is not a very proud pedigree which is displayed of the present Hun leader.

Treeless Australian Cities.

Australia, with its boundless scrub and bush has many towns without a tree to protect it from the glaring sun. This has been forcibly brought home to the Australian forces who have gazed in admiration at the endless avenues of England and France that are planted with trees, mainly oaks, elms and poplars. No village, however humble, seemed to be without these avenues, which appealed so much to the "Aussies."

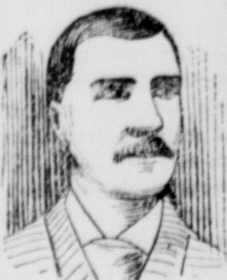

Our Boys in France and Home Protection

The men on the firing line represent the pick of our American youth. One in four of our boys at home was sick, rejected because of physical deficiency. Many times the kidneys were to blame.

If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of the Surgical Institute, Buffalo, N. Y., says that we should drink plenty of water daily between meals. Then procure at the nearest drug store, Anuric (double strength). The cost is 60c. This "An-uric" drives the uric acid out and cures backache and rheumatism.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month. You can obtain a trial package of Anuric by sending 10c to Dr. V. M. Pierce, Buffalo, N. Y.

ST. PAUL, MINN.—"I just want to say that Anuric has done for me what many other remedies have utterly failed to do. For over thirty years I suffered with rheumatic pains. At times I would have them in my back, then they would start in my left shoulder and run down into my arms, also in my left side extending down the limb to my ankle. I can't begin to tell how much I suffered during this time. A short time ago I heard of Dr. Pierce's Anuric. I have only taken one bottle of the tablets and today have not a pain or an ache. I cannot say enough in its praise."—JOHN EVANSOX, 1959 Greenbrier Avenue.

ICELAND PROUD OF CULTURE

Little Nation, Long Isolated From the Rest of the World, Has Maintained Its Spiritual Life.

There are few nations that can point to a brighter record of culture than this little nation of one hundred thousand people (Iceland), practically isolated on their arctic island for nearly one thousand years. Why did they not revert to barbarism, as has been the fate of many white groups out of touch with outside civilization? There is but one answer: The Promethean flame which kindled the genius of the old, now nameless, monks—the saga authors—has never died in Iceland. It could not die so long as the sagas lived, firing the spiritual life of the nation.

Each period of national prosperity since the saga age has seen a revival of literary activity. Now Iceland is more prosperous in a material way than ever in its history, and behold there is a pen scratching in every cottage; there is a poet apostrophizing every waterfall, dedicating the summer crop of poppies and daffodils, and charming, or at least trying to charm, the innumerable host of fays and light elves, trolls and water sprites and "landvaettir" which have endowed the bleak hills and mountains of Iceland with an immortal soul.—From the Dial.

Fewer Works of Art Imported.

According to a compilation by the National City bank, the value of art works imported in 1918 is about \$11,000,000, as against \$23,000,000 in 1917 and \$35,000,000 in 1914.

In automobiles the value in 1918 was about \$50,000, against nearly \$2,000,000 in 1913 and more than \$2,000,000 in 1912, while the average value per machine imported in 1918 was less than one-half that before the war. Decorated chinaware imported in 1918 was about \$3,500,000 in value, against \$8,000,000 in 1914. Almost the same ratio was shown in decreases of precious stones and jewel importations.

The Attraction.

Slacker—What is there about a uniform that attracts a girl?
 Girl—Nothing. It's what the uniform is about that attracts her. A real man, you know.

Americans Should Eat Fish.

Americans are deficient as fish eaters, compared with inhabitants of foreign countries. Less than two pounds per head is the yearly consumption of salt and smoked fish in this country. For the winter's supply, salt fish can be laid in and, pound for pound, furnish much more nutriment than fresh fish. This is because curing extracts a large part of the water, and what is left is nearly all solid food.—People's Home Journal.

Had No Occasion to Say It.

A little girl was invited to a friend's house for dinner and before leaving her mother warned her to say "please." "Thank you," and "no, thank you." When the little girl returned she was asked if she said please and thank you and she said yes. Then her mother asked: "Did you say no, thank you, when they passed something you didn't want?"
 "No, mother, I didn't, because they didn't pass anything I didn't want."

Avenues of Honor.

The city of Cleveland has adopted a novel plan for honoring its soldier dead. For each Cleveland soldier that loses his life in this war a victory oak will be planted along one of the boulevards, and each of the oaks will be named for a soldier. This will constitute a beautiful and enduring memorial, with a practical as well as a sentimental value. Other cities may find it desirable to follow Cleveland's example.—Springfield (Mass.) Union.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, sallow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.

Hell-Dog.

Cerberus in ancient Greek story was the sleepless dog which guarded the entrance to Hades; the lower or infernal regions in which dwell the shades of the dead. He is usually represented with three heads and with serpents round his neck.

DON'T DRINK SHIPS!

U. S. Food Administration.

Are you shocked to see the lady drinking ships? You drink ships every time you use sugar unnecessarily, in a beverage.

Seventy-five per cent. of the sugar used in this country has to be brought here in ships. Every possible ship is needed for the transportation of troops and supplies to the other side.

Eliminate sugar as a luxury, and you release many ships for war purposes.

Teach your appetite to remember this—DON'T DRINK SHIPS.

\$90,000 BOND MARK BY SHOPS AT NOON

Shopmen Have Canvassed the Entire Working Force and are Now Asking for Additional

MANY DOUBLING HOLDINGS

\$8,000 Additional Has Been Secured in This Manner and Confident of Reaching \$100,000

The shop quota of \$100,000 in the Fourth Liberty Loan will undoubtedly be reached by the men.

At noon today the figures had reached \$90,000.

Every one had been canvassed and every one had subscribed. That didn't stop the Northern Pacific shopmen. They started all over again and everyone able to is doubling his allotment. In this way an additional \$8,000 has been secured.

For skill and untiring energy in canvassing, for attaining results and for the grim determination to make the figures an even \$100,000 you have got to hand it to the shopmen for showing patriotism and an earnest desire to help in all ways possible the boys doing their share over there.

STATE PARK ON LAKE SHORE SOON

May be Established by Next Legislature on Scenic Highway Along Mille Lacs Lake

ON WEST SHORE OF THE LAKE

Representative Hilding A. Swanson Introduced Project at Last Session of Legislature

A new state park may be established by the next legislature on the Scenic Highway along the west shore of Mille Lacs lake near Garrison.

State Treasurer Henry Rines and State Auditor J. A. O. Preus viewed the proposed location for the park with A. G. Trommald, register of deeds of Crow Wing county, who is the third commissioner, and to which commission the subject was referred by the legislature.

Representative Hilding A. Swanson introduced the park project in the last legislature with the result that an investigation was ordered. The commission will meet later to agree upon a report.

EMBARGO ON THE GULL LAKE ROAD

So much roadwork is being done on various sections of the National Gull Lake road that County Engineer C. L. Motl has asked automobile drivers and others to discontinue use of the road for a time, and not to use the lower section in traveling to Nisswa.

This is the Stove Polish YOU Should Use

IT'S different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask is that you try our cook stove, your buffet stove or your range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

Black Silk Stove Polish Works Sterling, Illinois

Use Black Silk Air-Drying Enamel on Ranges, Registers, Stove Pipes—Prevents rusting. Use Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobiles.

"A Shine in Every Drop"

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs.

This being true, it is easy to believe that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person. For over 200 years GOLD MEDAL Haarem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haarem Oil is inclosed in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small swallow of water.

WAS YOUNGEST EDITOR

Clarence Wolstad 16 Years of Age When He Conducted the "Deerwood Enterprise"

Clarence Wolstad of Minneapolis, former editor of the Enterprise was a pleasant caller here this afternoon. He is visiting his parents in Brainerd and thought it an opportune time to run up to Deerwood. He is a linotype operator in the Augsburg Publishing House in Minneapolis and expects soon to be called into military service. At the time he had charge of the Enterprise he had the distinction of being the youngest editor in the state—he was just "sweet sixteen" then.—Deerwood Enterprise.

LITHUANIAN IN COURT IN MORNING

Charged With Making Remarks that Citizens Should Not Aid Government in the War

DISCHARGED AFTER HEARING

When Released, He Promptly Invested in More Bonds Than Allotment Called For

In municipal court this morning Judge Walter F. Wieland heard the case of Charles Russell, a Lithuanian, charged with teaching that citizens should not aid the government in the prosecution of the war. He had made some remarks about Liberty Bonds and had refused to take one himself. What conversation he had was not considered sufficient to hold him. It may be stated that Russell when released promptly bought more than his allotment.

This afternoon at 2 o'clock commenced the trial of a large number of cases charging Austrians with keeping unlicensed drinking places at various places on the Cuyuna range.

County and state agents aided in securing evidence and making raids. Much interesting testimony is expected to be unfolded at the afternoon trials as to the manner in which evidence was secured.

ROLL OF HONOR

"Happy" Englund is on his way over seas and his sister says he has been a week on the water.

Anton Swanson, Dispatch representative in the army, has arrived safely over seas.

Bob Anderson has arrived safely in France.

Bob Gustafson arrived in France and is about to shoot the Boches.

Sergeant Conrad Witte, son of Mr. and Mrs. C. E. Witte, has arrived safely overseas. Valentine Witte is in the hospital at Fort Benjamin Harrison with Spanish influenza.

Geo. Ford has arrived safely overseas.

James Quinn, who is in the U. S. hospital service at Camp Stuart, Va., stopped off here a couple of days to visit his parents. He took an insane man from the detention hospital to South Dakota and it was on the return journey that James was enabled to stay over. He looked the picture of health and says the service is an ideal place for a young man.—Deerwood Enterprise.

FUEL SITUATION TO BE INVESTIGATED

Charles H. Krech has been notified to go to St. Paul and testify regarding the fuel situation in Crow Wing county. He left on the early morning train Thursday.

SANATORIUM AT DEERWOOD OPENED

Program of Short Addresses by Men Prominent in Making Splendid Institution Possible

BUILDING AND EQUIPMENT

Dr. H. F. Gammons, Superintendent of Hospital, in Charge of the Ceremonies

The Deerwood sanatorium for the treatment of tuberculosis was formally opened Wednesday, October 2, with a program of short addresses by men prominent in making this splendid institution possible. Approximately one hundred and fifty people attended the opening, inspected the handsome building and equipment and voiced their keen appreciation of a great work, ably carried out and certain to result in bringing to afflicted humanity the best that modern science can afford in the treatment of a disease which is rapidly being overcome, or at least checked in its ravages, through scientific mediums.

Dr. H. F. Gammons, superintendent of the institution, was in charge of the program. Remarks were made by the following:

Dr. J. A. Thabes, chairman of the commission; Dr. Walter F. Courtney, Dr. R. A. Beise, Professor J. A. Wilson, Edward Crust and Miss Irene English, the latter superintendent of nurses of the Northern Pacific hospital, all of Brainerd, and A. B. Dunham of the firm of Sund & Dunham, architects, of Minneapolis, who drew the plans for the building.

The program was carried out on the roof of the east wing of the building, this wing having been run up only one story high and so arranged as to permit adding another story when occasion warrants the addition, as it soon will, judging from the interest shown in the sanatorium and the number of patients already listed for treatment.

The building has accommodations for twenty-four patients and fully this number have already made application for treatment.

A light lunch was served by the management and the building inspected from basement to the upper rooms by a well pleased and admiring gathering of people. Expressions of praise and congratulations were heard on every hand. Members of the commission and the county boards of Atkin and Crow Wing county given the praise they so well deserve and those in immediate charge of the many details advised that they had discharged their duties in a most satisfactory and creditable manner.

The day was ideal and the drive to the sanatorium made through wood and dell, gorgeous in gay autumn colorings.

The Brainerd Dispatch was represented by a special correspondent who will prepare a detailed description of the building and its surroundings for a future issue of this publication.

RANGE HOME GUARDS FIGHT PEAT FIRES

Ironton Makes Splendid Record in County, Makes Quota of Liberty Bonds First Day

OCT. 12 OBSERVED IN IRTONTON

Banquet, Entertainment and Dance to be Given by the Knights of Columbus That Day

Ironton, Minn., Oct. 3.—Gaining entrance through a basement window, burglars appropriated a number of articles from the Ironton Hardware Co. store.

October 12, birthday of America when Columbus discovered it, will be celebrated as Liberty Day throughout the land. A banquet and entertainment will be given in Ironton by the Knights of Columbus. An orchestra will play and an hour's dancing will follow the program. The committee on banquet includes C. A. Lewis and Louis Bauer. The committee on arrangements is George Ridley, E. A. Lamb, Sr. The committee for Riverton is S. Smith and P. Barron. The Deerwood committee is H. J. Ernster and A. Maley.

Attorney Thomas Beare, a limited service man, is now assisting the Morrison county exemption board at Little Falls.

Ironton boasts new cement sidewalks on Ironton avenue near the railroad crossing.

Ironton and Crosby Home Guards numbering fifty fought the peat bog fire at McGregor last week.

J. P. McGill of Brainerd was in town.

In one day Ironton went over the top with its quota of the Fourth Liberty loan.

Mr. and Mrs. Ira W. Smith have returned from a three weeks' visit in the southern part of the state.

U. S. BOILERMAKER NOW ON THE JOB

Lieut. Ben Fisher, Former Brainerd Man, Heading Detachment Ordered to Vladivostok

SPENT MONTHS ON WAITING LIST

Praises Czech-Slovak Soldiers, Russians Miss Their Breakfasts Regularly it Seems

Lieut. Ben Fisher, former Brainerd man who made his home with Mr. and Mrs. Sam Parker, writes a letter from Vladivostok dated August 13, telling of the experiences of the detachment of American boilermakers he heads and which for a year has been waiting to get on the job.

After months in the Hawaiian Islands and Japan, as related in former letters, they have been ordered back to the Russia which they left at the time of the revolution when everybody seemed to be running the railroads and nobody was responsible to anybody else.

In his letter Lieut. Fisher states: "Just a line to let you know we got out of Nagasaki on Wednesday, August 7 at 8 o'clock and we ran into a storm just after getting out of the bay and it lasted two days."

"If there every was a seasick bunch we sure were. There were just ten men that did not get sick. I did not get out of my cabin for two days, but I managed to eat a little every meal."

"Just off the coast of Korea not very far from Fusan, they had some trouble with the engine on the ship and they had to stop the ship for about ten minutes and you can guess how we tossed around in that time."

One of our men ran around the ship telling everybody they had lost the propeller and some of the men got their life belts on, but I was so sick just about that time I did not care if the ship went down or not. I did not know how close we were to shore. The boys told after the ship got on its way again that they could see the waves washing over the rocks."

"We arrived at Vladivostok on Saturday night, August 10, but I did not leave the ship until the next morning at 8."

We sleep in an old school house and eat at any cafe around the city. But there is one thing a person cannot get over here and that is breakfast, as the Russians do not get up till about noon. All we can get for breakfast is coffee and rolls at a coffee house. But at noon you can get a very good lunch and it doesn't cost very much. Lunch costs about eight rubles and dinner will cost around ten or twelve rubles and a ruble is just ten cents gold. So you see it is cheaper over here than in the States and they sure give a person lots to eat and it is very good food."

It takes us about two or three hours to get a meal as they are very slow waiting on a person. But most every place around here has got very good music in every cafe in the city."

The buildings around here are all built of stone or brick and they run from two to three stories in height, but most of them are very old and dirty."

There is lots of news I would like to write you, but we cannot write any one about what is going on around here.

There are lots of good looking Russian girls around here, but they cannot come up to the good little American girls at that."

Those Czech-Slovak soldiers are some of the most wonderful men I ever saw, and when you read about what they are doing, you can sure believe it."

My new address is Vladivostok, Russia, Asia, care of American Consul.

Well, I suppose you are just about ready to go to the front. Write and give me all the news about him as I know he is too busy to write and he never was much of a hand to write."

I just got a bunch of papers and Saturday Evening Posts from home. That is one thing we have a hard time getting is reading matter. Well, I will close with regards to all your folks."

Card of Thanks

We sincerely thank our friends and neighbors, Ladies' Aid, N. W. telephone operators and all those who go kindly gave us their help and sympathy in our recent bereavement when our dear husband and father passed to his reward.

These acts of kindness and the beautiful floral offerings will always be treasured by us in grateful memory.

Mrs. Emma Kambath and Family.

Mr. F. W. Frost and Family.

CUYUNA

Cuyuna, Minn., Oct. 3.—Max Greenberg was at Ironton on business matters.

Cuyuna schools have opened with a large attendance.

And Another Shipment of Pretty Serge Dresses

These should have been here a month ago. They are just as pretty as if they had been here sooner.

These are tailored dresses such as are neat, very dressy and serviceable. Many trimmed with military braid.

These are priced from \$22.50 to \$35.00. Other serge dresses priced as low as \$16.00.

BRAINERD BOY IN MARINES' BATTLES

E. E. Bruhn Writes Parents in Brainerd of Recovering From Wounds Received at Chateau Thierry

MET TONY ANDERSON OF CITY

Was in Two Attacks at Soissons, Advanced Five Miles Chasing the Boche Down the Line

In a letter to his parents, E. E. Bruhn of the Marines, tells of experiences at Chateau Thierry and Soissons. He was wounded at Chateau Thierry. He writes:

"I am getting along fine. My face hardly shows a mark. I lost all of my photos except a few I prized most. Those I had in my blouse. I had my blouse off, digging a hole for protection along with two other fellows at Chateau Thierry when the Germans threw over a barrage."

"There were some gas shells exploding and we put on our gas masks. Then a high explosive shell hit about three feet from the hole where we were in. The concussion of the explosion knocked me over in a second and two of my comrades risked their lives and carried me through that bombardment back to the first aid station. From there I went to Paris in an ambulance. At least, that's what they told me afterwards as I did not come to for fourteen hours."

"I got a little better job when I came back to the company. Before I was an orderly for an officer. Now I have charge of the officers' eating in our company. We have an officers' cook, but I see that they get waited on, that special things are bought for them and see that they eat when on the march."

"While moving the other day I saw Tony Anderson in the 23rd Infantry. I talked to him a few minutes and he a feeling fine."

"About four days after I came back from the hospital and joined my company, we left for around Soissons. We made two attacks here in one day and advanced about five miles. I and another boy who joined the Marines the same time were running messages and we sure were dodging bullets, aeroplane bombs and shrapnel. The closest I came to getting hit was to get grazed on my left shin with a piece of shrapnel."

"This other runner and I were both recommended for the distinguished service cross by our officers for the way we did our duty, taking every chance in the world."

"The way I look at this war is philosophical. There is nothing to worry about. If you get killed, you don't have to worry. If you get wounded, you might lose an arm or leg, but that don't bother you much. You get to the hospital and rest for a while. If you don't get wounded or gassed, you are all right. So a fellow might as well take things as they come and not worry."

POWERS ARE AROUSED

Allies Indignant at Ruthless German Destruction.

May Warn Germany That Reprisals Will Be Taken for Acts of Vandalism.

Washington, Oct. 3.—The Allies and the United States are considering an ultimatum to Germany regarding the ruthless destruction of cities and private property in Northern France and Belgium.

The burning of Cambrai and St. Quentin and the devastation of one of the most populous regions of Europe as the Germans retreat has aroused great indignation and it was said in diplomatic circles that Germany would be warned soon that it she allows the work of destruction to continue severe reprisals will follow.

It is suggested that the cities of the Rhine should be marked for destruction and the Berlin government told that for every French and Belgian city ruined without military reason a city equally important and valuable sentimentally and materially will be laid waste.

Since reprisals by bombardment have caused the Germans to discontinue to a great extent their air attacks on defenseless communities, it is felt here that a similar warning might be effective in bringing home to the German people the danger of retaliation for ruthless destruction of territory now occupied by their troops.

TRAIN RUNS INTO WASHOUT

Over Three Hundred Persons Are Killed in Sweden.

London, Oct. 3.—Three hundred and fifty persons have been killed, it is learned, in a railway accident at Malmo, Sweden, says an Exchange Telegraph dispatch from Copenhagen. Fifty children who were returning to Stockholm from the country are among the dead.

The railway line has been washed out at this point by several days of rain and a large passenger train with 24 cars, carrying 1,000 passengers, ran into the break.

America Equal to Task.

Paris, Oct. 3.—Marshal Joffre, former premier Viviani and Capt. Andre Tardieu, head of the general commission for Franco-American war matters were recently asked to give an outline of what could be expected from the American effort towards deciding the war. In his answer Marshal Joffre wrote: "From the moment of my return from Washington I have affirmed my conviction in the realization and effect of America's aid, of which I clearly foresaw the full magnitude this American aid is today a reality."

GOVERNMENT MAY RETAIN RAILWAYS

BELIEF GROWS THAT THE ROADS WON'T REVERT TO PRIVATE OWNERSHIP AFTER WAR.

VARIOUS REASONS FOR THIS

Foolish Arguments Against Taxing Salaries of President and Federal Judges—No More Pacifists Are Found in Congress.

By ARTHUR W. DUNN.

Washington.—The belief is growing that government ownership of railroads, and of the telegraphs and telephones as well, has come to stay. While there may be many arguments for and against the policy, the most potent factor will be the votes of 2,000,000 men employed in the railroad service whose wages have been increased since the government took over the roads. It is true that the increases did not come out of the revenues of the railroads, but are made up out of the federal treasury. No one knows better than these railroad employees that to return the railroads to private control and management will mean a reduction of their wages; the fact that the wage increases come out of the treasury rather than the earnings of the roads is a sufficient indication to the railroad men as to what will happen if the roads are returned to their former status. These 2,000,000 railroad men will vote to have the properties remain under government control; they will vote for men who will favor government ownership.

It is quite likely that the owners of the properties will also be satisfied to have the government continue in control. They are now guaranteed the average dividends of the three years before the war, and that guarantee does not depend upon business conditions or the ideas of boards of directors. It is sure to come from the government. Finally, a large proportion of the former railroad employees in the higher positions are well satisfied. They are in the government service now, assured of their positions, and many of them are getting mighty good salaries.

Opinion is divided as to whether or not the courts will sustain the income tax on the salary of the president and federal judges. Some very ridiculous arguments were made about this tax. For instance, it was claimed that the independence of the executive and judiciary were endangered by it as an adverse congress could tax them into submission. An adverse congress desiring to coerce the executive or judiciary by such means could find a shorter cut by refusing to appropriate the salaries of these officials. Before any congress could coerce either the executive or the judiciary to any extent it is quite likely the people would displace that congress with one having more sense.

War has brought about many changes in congress, and in nothing more than the elimination of the pacifist. The pacifist congressman is no longer among us. Even those who voted against the declaration of war and the selective draft are vociferous in their demands that Germany should be soundly whipped. Of course, we know that if the pacifist congressman did not make himself a rather vociferous war congressman the people would see that he no longer remained a congressman of any kind. It is interesting to note that some of those who were pacifists in 1915, and who previous to that time worked and voted against increasing the army and navy, are among those who have visited the battlefields of Europe and returned with strong determinations to carry on the war to a victorious conclusion. Nothing so changes views as a real war in which the country is engaged.

Congressman Albert Johnson of Washington, who has joined the army and is now a captain, is a newspaper man. His "get-away" speech was loudly applauded in the house. Johnson went to Europe last year and what he saw there decided his future course, and he fitted himself for the army. He did not resign, and he will be a candidate for re-election. No question has yet arisen to determine whether a man can hold a commission in the army and also serve as a member of the house.

Congressman Fairfield of Indiana asserted in a house speech that the United States had refuted the oft-repeated statement that a republic could not wage war successfully. "The United States has demonstrated to the world that a republic can be as efficient as an autocracy," he said. "We have got into the habit of underestimating our physical achievements."

One effect of the war has been seen in the illustrations in the metropolitan newspapers. Time was when the pictures of women were largely devoted to seaside views of girls in tight-fitting bathing togs, actresses, etc. Now we see the girls pictured in overalls, factory clothes, natty motor suits, Red Cross and ambulance driver uniforms. In fact, the war has made a decided change in the picture departments of newspapers.

CASUALTY LIST 1,090

Nearly Two Hundred Americans Slain in Action.

Daily Report Just Cabled to War Department From France Brings Total to 38,009 for War.

Washington, Oct. 3.—General J. J. Pershing has cabled the War department a casualty list of 1,090 names, headed by 187 Americans killed in action.

BALTIMORE RANKS HIGHEST

Heads High Cost of Living Cities in United States.

Washington, Oct. 3.—Baltimore heads the high cost of living cities in which investigations so far have been made by the government, with Philadelphia second. A report showed that in the Baltimore district costs have increased 80.18 per cent since December, 1914, and 24.62 per cent since last March. The increase in Philadelphia was 67.17 per cent since 1914.

REVOLTS BEGIN IN BALKANS

Croatians, Slovenes and Serbians Cause Teutons Trouble.

London, Oct. 3.—News has reached the Serbian army in Macedonia that revolts have broken out in Serbia and other regions where there are Serbians, Croats and Slovenes. This announcement is made in a Serbian semi-official note, which says that the reports should be received with great reserve.

American Planes a Success.

Washington, Oct. 3.—A most favorable report on Dehaviland Four airplanes with Liberty motors manufactured in this country has been made to Maj. Gen. Kenly, chief of military aeronautics, by an officer of the air service just back from France. The first planes arrived at stations in France as early as May 13 last, and since then have been coming in ever increasing numbers. Six weeks ago about 18 planes were arriving daily. Some changes were necessary at first, the officer said.
